Demonstrate the virtualization by installing type 2 hypervisor in your system, create and configure VM image with a host operating system

Procedure

Step 1: Install VM ware

Step 2: Go to VM ware workstation

Step 3: Right click on the VM and then go to settings

Add Hardware wizard and select SCSI (small comp system integration) and click next

Step 4: create the new virtual disk

Step 5: select the disk size as 2.0 and select the split virtual disk into multiple files

Step 6: Give name and click Finish
