The screenshot shows the Zoho Creator application builder interface. At the top, there's a navigation bar with tabs for 'Design' (which is selected), 'Workflow', and 'Settings'. Below the navigation bar is a toolbar with icons for file operations like 'New', 'Open', 'Save', and 'Print'. The main workspace displays a 'Car Booking' form template. The form has a header section with three input fields and a body section containing several input fields and a large central area. A gear icon above the form indicates it's a template. To the right of the form, there are four smaller preview windows showing different sections of the form. Below the form, there's a call-to-action button labeled 'Create new form'. At the bottom of the screen, there's a taskbar with various application icons (File, Zoom, ENG IN, 13:26, 09-01-2023) and a status bar indicating 'Waiting for salesiq.zohopublic.com...' and 'Trial expires in 15 days | Upgrade | Help'.
